

■ Quiescent Circuit Current (single circuit)

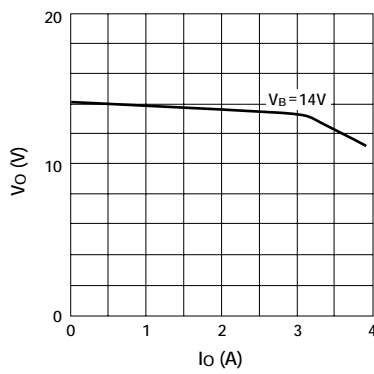

■ Circuit Current (single circuit)

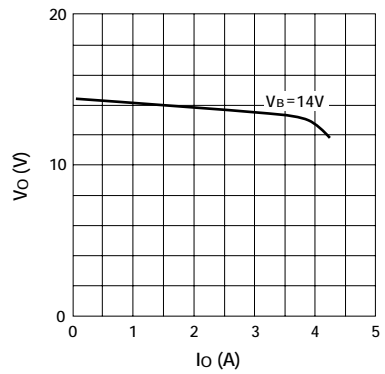

■ Saturation Voltage of Output Transistor

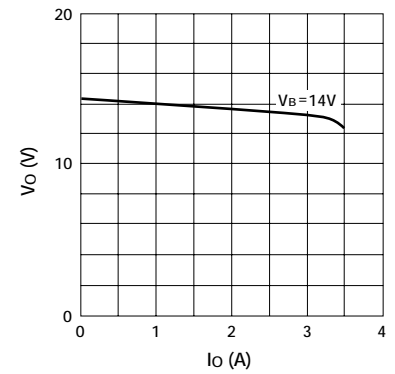

■ Overcurrent Protection Characteristics (Ta=-40°C)

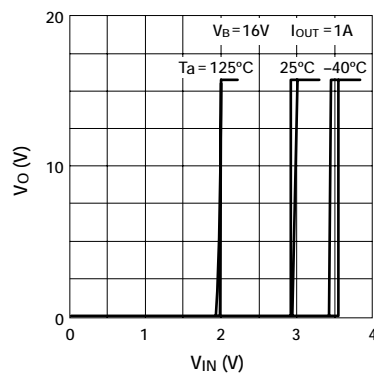

■ Overcurrent Protection Characteristics (Ta=25°C)

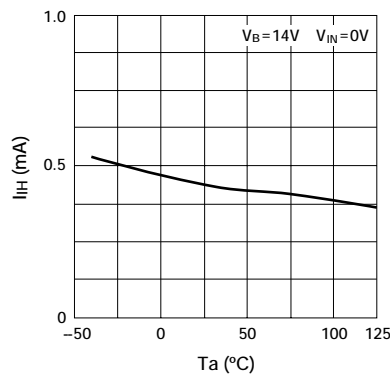

■ Overcurrent Protection Characteristics (Ta=115°C)

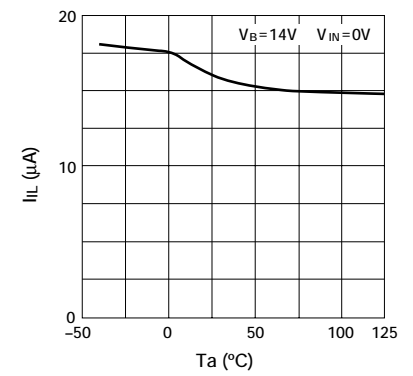

■ Threshold Input Voltage

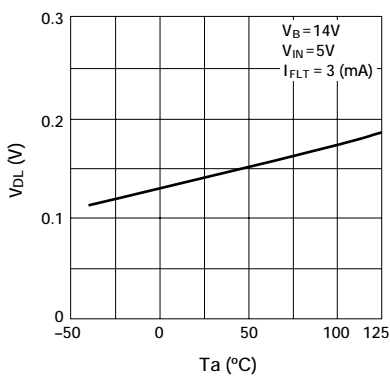

■ Input Current (Output ON)

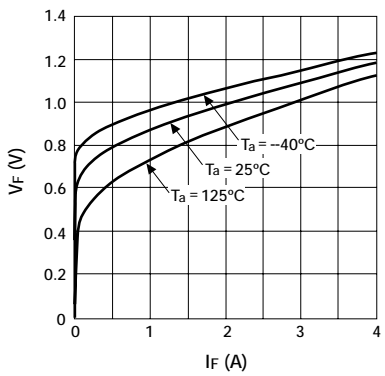

■ Input Current (Output OFF)

■ Saturation Voltage of DIAG Output

■ Output Reverse Current

■ Thermal Protection
