

M3T-64DIP-DMS

Converter for Connecting 64-pin RSS Type Emulator MCU to M3T-DUMMY64

Function

This converter connects a 64-pin 1.778mm-pitch SDIP (64P4B or 64S1B-E) package to the connector provided at the direct dummy IC M3T-DUMMY64.

Application

Use this converter when you have M3T-DUMMY64 mounted on the target system and want to connect an RSS-type emulator MCU or EPROM-version MCU (64S1B-E) to the target system.

Dimensions

62.0(D)×35.0(W)×10.0(H)mm
