NOTES: (1) All multiple output models may be operated at no-load without damage. At no -load, output voltage tolerance increases to 10%.

(2) Ripple and noise: Peak to peak with 20MHz bandwidth and 10µF in parallel with a 0.1µF capacitor at rated line voltage and load range.

(3) Safety agency approvals are for the above listed models in PCB mounted format. To order a model with a metallic L-bracket or box, change suffix "A" to "B" for L-bracket format, to "C" for enclosed format.
