Plain Bearing Chucks

The Jacobs Plain Bearing Chuck is the world's most widely used for medium or heavy duty portable, bench or floor mounted power tools. This industrial quality chuck with fully hardened and ground working components, offers exceptionally high accuracy, gripping power and durability.

**Features:**

- Jaws centre-ground for absolute straightness and alignment.
- Through-hardened sleeve teeth, hardened nose and keyholes ensure outstanding wear resistance.
- One-piece sleeve eliminates crack between driving teeth often found in other designs.
- Each chuck 100% inspected for performance and precision.
