TWO STEP RECTANGLE TYPE LED LAMPS

Lead-Free Parts

**L8Y17130-PF**

# DATA SHEET

DOC. NO : QW0905-L8Y17130-PF

REV. : A

DATE : 01 - Aug.- 2007

LIGITEK

LIGITEK ELECTRONICS CO.,LTD.  
Property of Ligitek Only

PART NO. L8Y17130-PF

Page 1/5

## Package Dimensions

Note : 1.All dimension are in millimeter tolerance is  $\pm 0.25\text{mm}$  unless otherwise noted.  
2.Specifications are subject to change without notice.

## Directivity Radiation

## Absolute Maximum Ratings at Ta=25 °C

| Parameter                               | Symbol | Ratings    | UNIT |
|-----------------------------------------|--------|------------|------|
|                                         |        | Yellow     |      |
| Forward Current                         | IF     | 15         | mA   |
| Peak Forward Current<br>Duty 1/10@10KHz | IFP    | 50         | mA   |
| Power Dissipation                       | PD     | 50         | mW   |
| Reverse Current @5V                     | Ir     | 10         | μA   |
| Operating Temperature                   | Topr   | -40 ~ +85  | °C   |
| Storage Temperature                     | Tstg   | -40 ~ +100 | °C   |

## Typical Electrical & Optical Characteristics (Ta=25 °C)

| PART NO     | MATERIAL  | COLOR   |                 | Peak wave length<br>λ Pnm | Spectral halfwidth<br>Δ λ nm | Forward voltage<br>@10mA(V) |      | Luminous intensity<br>@10mA(mcd) |      | Viewing angle<br>2θ 1/2 (deg) |
|-------------|-----------|---------|-----------------|---------------------------|------------------------------|-----------------------------|------|----------------------------------|------|-------------------------------|
|             |           | Emitted | Lens            |                           |                              | Min.                        | Typ. | Min.                             | Typ. |                               |
| L8Y17130-PF | GaAsP/GaP | Yellow  | Yellow Diffused | 585                       | 35                           | 1.7                         | 2.1  | 4.5                              | 12   | 110                           |

Note : 1.The forward voltage data did not including ±0.1V testing tolerance.  
2. The luminous intensity data did not including ±15% testing tolerance.

## Typical Electro-Optical Characteristics Curve

**Soldering Condition(Pb-Free)****1.Iron:**

Soldering Iron:30W Max

Temperature 350° C Max

Soldering Time:3 Seconds Max(One time only)

Distance:2mm Min(From solder joint to body)

**2.Wave Soldering Profile**

Dip Soldering

Preheat: 120° C Max

Preheat time: 60seconds Max

Ramp-up

2° C/sec(max)

Ramp-Down:-5° C/sec(max)

Solder Bath:260° C Max

Dipping Time:3 seconds Max

Distance:2mm Min(From solder joint to body)

Note: 1.Wave solder should not be made more than one time.

2.You can just only select one of the soldering conditions as above.

**Reliability Test:**

| Test Item                           | Test Condition                                                         | Description                                                                                                                                                             | Reference Standard                                                             |
|-------------------------------------|------------------------------------------------------------------------|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------|--------------------------------------------------------------------------------|
| Operating Life Test                 | 1.Under Room Temperature<br>2.If=20mA<br>3.t=1000 hrs (-24hrs, +72hrs) | This test is conducted for the purpose of determining the resistance of a part in electrical and thermal stressed.                                                      | MIL-STD-750: 1026<br>MIL-STD-883: 1005<br>JIS C 7021: B-1                      |
| High Temperature Storage Test       | 1.Ta=105 °C ±5 °C<br>2.t=1000 hrs (-24hrs, +72hrs)                     | The purpose of this is the resistance of the device which is laid under condition of high temperature for hours.                                                        | MIL-STD-883:1008<br>JIS C 7021: B-10                                           |
| Low Temperature Storage Test        | 1.Ta=-40 °C ±5 °C<br>2.t=1000 hrs (-24hrs, +72hrs)                     | The purpose of this is the resistance of the device which is laid under condition of low temperature for hours.                                                         | JIS C 7021: B-12                                                               |
| High Temperature High Humidity Test | 1.Ta=65 °C ±5 °C<br>2.RH=90 %~95 %<br>3.t=240hrs ±2hrs                 | The purpose of this test is the resistance of the device under tropical for hours.                                                                                      | MIL-STD-202:103B<br>JIS C 7021: B-11                                           |
| Thermal Shock Test                  | 1.Ta=105 °C ±5 °C & -40 °C ±5 °C (10min) (10min)<br>2.total 10 cycles  | The purpose of this is the resistance of the device to sudden extreme changes in high and low temperature.                                                              | MIL-STD-202: 107D<br>MIL-STD-750: 1051<br>MIL-STD-883: 1011                    |
| Solder Resistance Test              | 1.T.Sol=260 °C ±5 °C<br>2.Dwell time= 10 ±1sec.                        | This test intended to determine the thermal characteristic resistance of the device to sudden exposures at extreme changes in temperature when soldering the lead wire. | MIL-STD-202: 210A<br>MIL-STD-750: 2031<br>JIS C 7021: A-1                      |
| Solderability Test                  | 1.T.Sol=230 °C ±5 °C<br>2.Dwell time=5 ±1sec                           | This test intended to see soldering well performed or not.                                                                                                              | MIL-STD-202: 208D<br>MIL-STD-750: 2026<br>MIL-STD-883: 2003<br>JIS C 7021: A-2 |
