

Handibender 218M

Even if you have never bent a pipe in your life you'll find the 218M very easy to use. Formers, rollers and tube locator are all fixed to bend just two sizes so you don't have to make any adjustments, with a little practice anyone can make smooth, perfect bends, time after time.

The formers, guides and rollers are all cast aluminium and the handles are tubular steel, making the Handibender light, portable and perfect for the room to room working conditions of a plumber or home handyman.

Capacities

Copper	15 mm and 22 mm o.d.
Stainless steel	15 mm and 22 mm o.d.

Conversion kits

The standard 218M Handibender can be easily adapted for sizes other than 15 mm and 22 mm o.d. by fitting the appropriate former. Conversion kits, listed below, contain both former and guide of the required size. No other modification of the machine is necessary.

Former and guide conversion kit	Size of tube	Description of tool
FG2-18M	18 mm o.d.	Former and guide for 18 mm o.d. tube
FG2-25M	25 mm o.d.	Former and guide for 25 mm o.d. tube
FG2-38M	38 mm o.d.	Former and guide for 38 mm o.d. tube
FG2-50M	50 mm o.d.	Former and guide for 50 mm o.d. tube
FG2-63M	63 mm o.d.	Former and guide for 63 mm o.d. tube
FG2-76M	76 mm o.d.	Former and guide for 76 mm o.d. tube

Handibender 218

This bender is identical to the 218M but fitted with formers and guides for IMPERIAL sizes of copper and stainless steel pipe.

Stainless steel	1 1/2" and 2" o.d.

Weight 218/218M

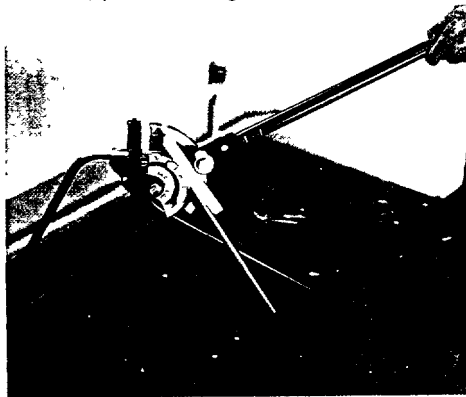

10 1/2 lb (4.7 kg) Display packed in illustrated carton

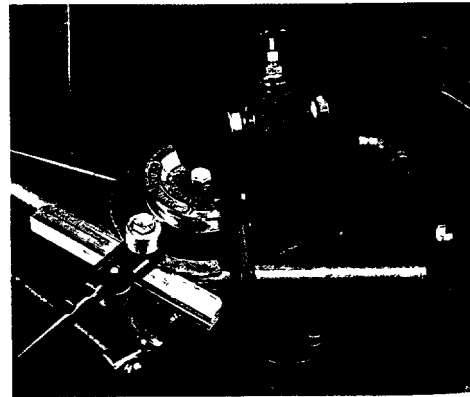

Free-hand bending

Floor support bending

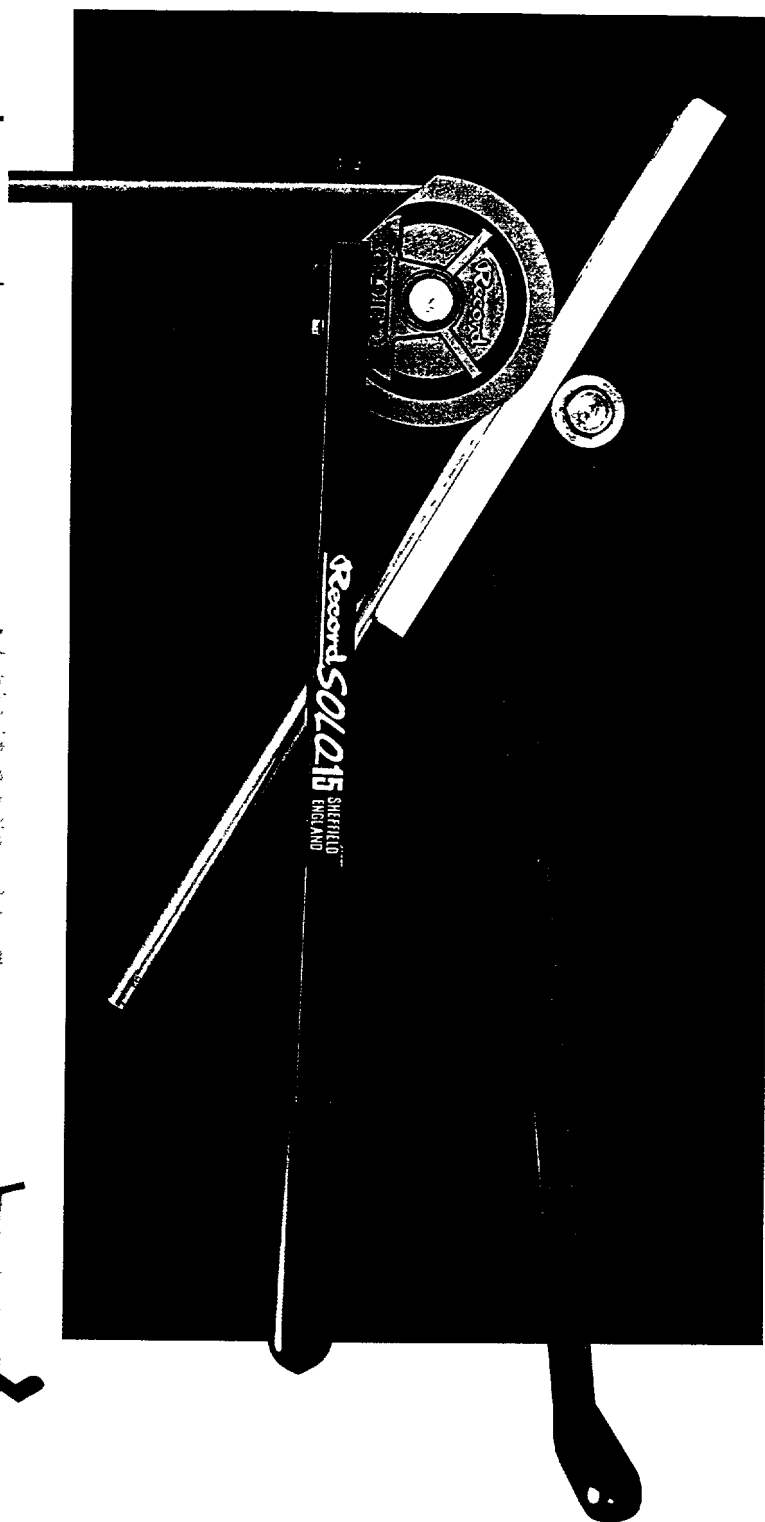

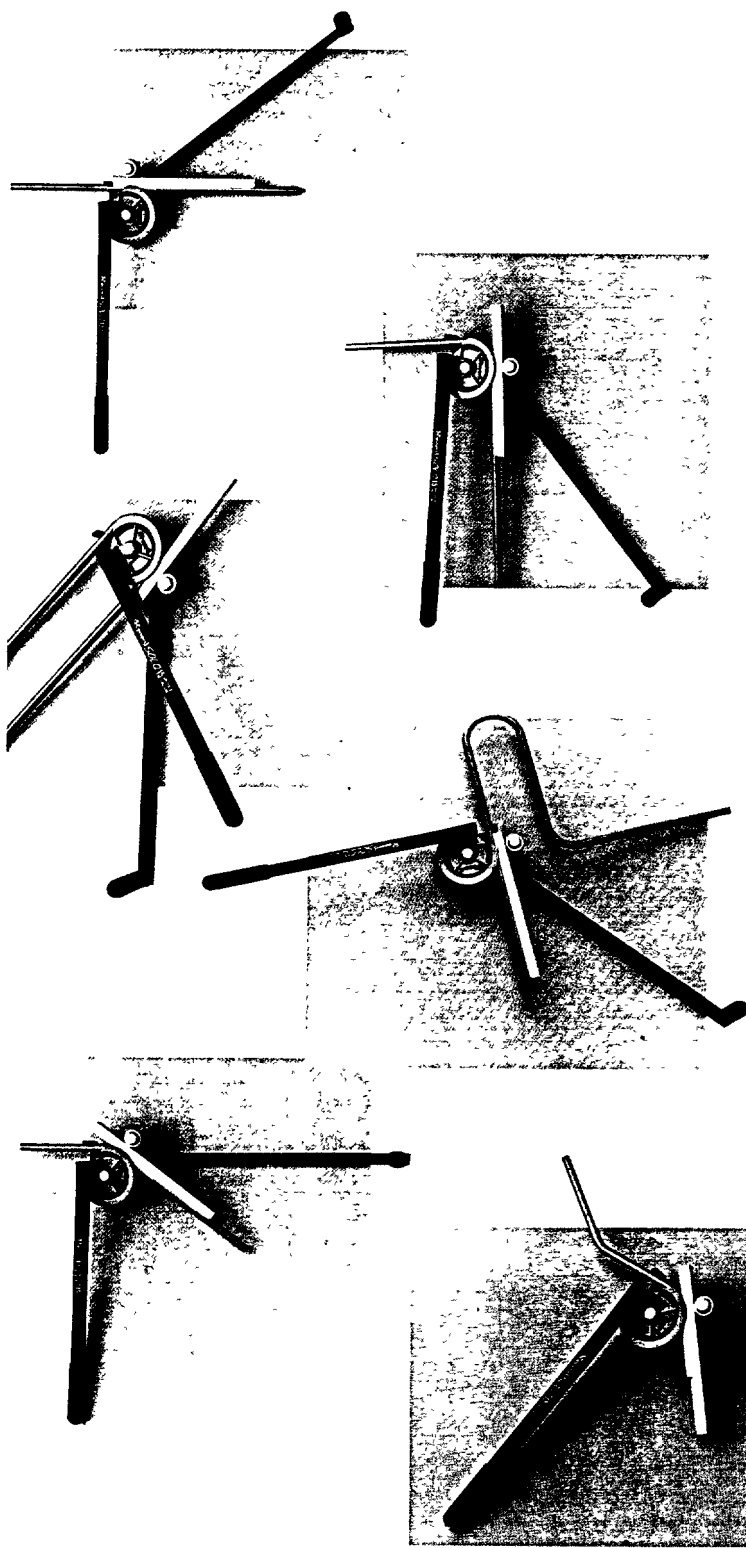

Vice-held bending

SOLO.15

15 mm Copper Pipe Bender

The Record SOLO 15 is simple, sturdy, economically priced and very easy to use. The aluminium former and guide are accurately machined and produce smooth, ripple-free bends up to 180° in one pass. Bending is always preferable to jointing. Cheaper and faster, it also avoids the problem of potential leaks. The SOLO.15 saves time, money and produces professional results even in the hands of a non-professional.

Cat No	Capacity	Overall length		Approx weight
