

RG-Series Single/Double Pole Rocker and Paddle Switches

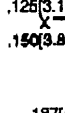

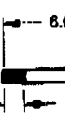

The double pole R-Series Incorporates the same sleek lines as the original Corvette, in a double pole envelope. Features include silver-plated butt-action contacts which afford ratings to 20A/125, 16A 250VAC and withstand peak inrush currents up to 100 amps. Paddle or rocker actuators and a choice of solder lug, .250 Tab and wire lead terminations enable this switch to adapt to high current applications within the Power Supply, Appliance, Exercise Equipment and Music Equipment Industries.

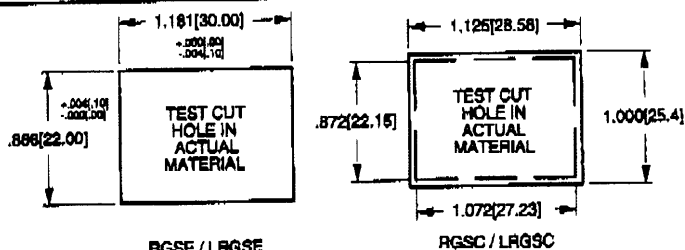

Dielectric Strength
UL/CSA: 1000V - live to dead metal & opposite polarity
1250V - opposite polarity & across open contacts
Electrical Life
50,000 cycles
Mechanical Life
100,000 cycles
Operating Temperature
-40°F to 185°F (-40°C to 85°C)

RG-Series Dimensional Specifications: In.[mm]

		
.250(6.35)	.125(3.18) .150(3.81) .187(4.75) .275(6.99)	6.000(152.40) .500(12.70)
