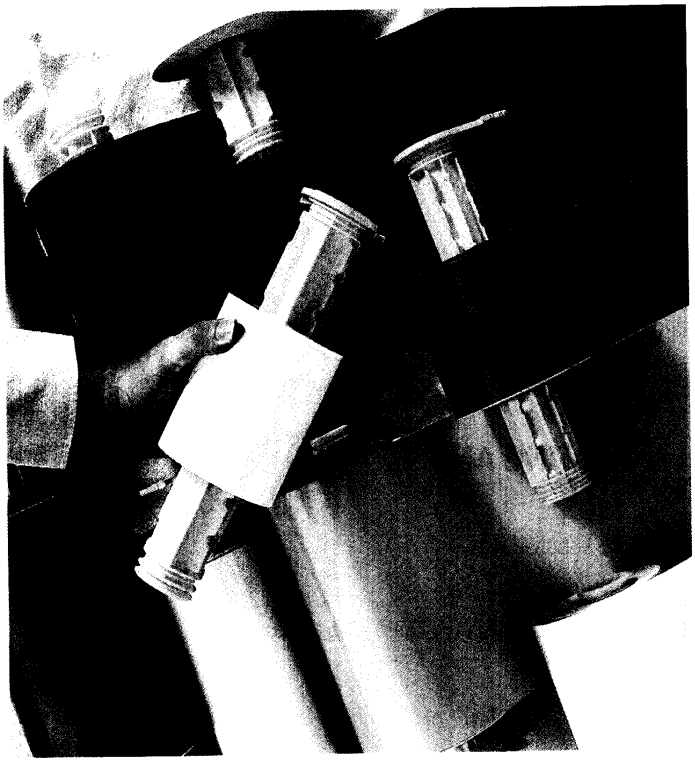
DO-IT-YOURSELF

PowerMark supplies - colour and simplicity combined



TAPES

Tapes for the Brady PowerMark are available from your Brady supplier in a wide range of sizes, colours and materials. Vinyl tapes, suitable for indoor and outdoor use, come in widths of 100mm, 150mm, 200mm and 250mm. Polyester tape, also in 15m lengths, is available in 100mm, 150mm, 175mm and 250mm widths and includes clear. A range of specialist materials, including gold, silver and photoluminescent, is also available.

Vinyl Tapes - 15m roll

SIGN BLANKS AND LAMINATES

To transform your PowerMark output into rigid, even more durable signs, use the BLS 1200 laminating system which comes supplied. Sign blanks in plastic and aluminium are available, in a range of standard sizes, as well as clear acrylic panels and single/double-sided laminates.

Plastic/aluminium - rounded corners and hole punched

White, Yellow, Orange

Clear acrylic panels with pressure sensitive adhesive*

Clear

*Use with the BLS 1200 to laminate output behind a clear panel to add rigidity while protecting the graphics.

BLS 1200 Laminates

Single-sided polyester overlaminate (250mm)

Double-sided polyester (300mm)
