LAS 3200 SERIES**10 AMP, 140 WATT POSITIVE HYBRID
VOLTAGE REGULATORS****FEATURES**

- 0.1% line regulation
- 0.2% load regulation
- 0.015% temperature coefficient
- Low noise
- Remote programming and remote sense
- Electrically isolated case

DESCRIPTION

The LAS 3200 Series of Power Hybrid Voltage Regulators is designed for applications requiring a well regulated, low noise, output voltage for load current variations up to 10.0 amperes. A key feature of the Power Hybrid Voltage Regulator is its construction. A high degree of thermal isolation between the heat generating power elements and the heat sensitive control and reference elements is achieved by placing the power section on the heat-dissipating base of the unit and the control state on the upper surface. This thermal isolation results in extremely low thermal drift characteristics for changes in power levels.

PARAMETER	SYMBOL	MAXIMUM	UNITS
Input Voltage	V_{IN}	40	Volts
Input-Output Voltage Differential	$V_{IN}-V_O$	28.6	Volts
Power Dissipation ¹	P_D	140	Watts
Thermal Resistance Junction to Case ²	θ_{JC}	1.25	°C/Watt
Thermal Resistance Junction to Ambient	θ_{JA}	15.0	°C/Watt
Operating Junction Temperature Range ³	T_J	0 to 200	°C
Storage Temperature Range	T_S	-55 to 125	°C
Lead Temperature (Soldering, 10 seconds)	T_{LEAD}	215	°C

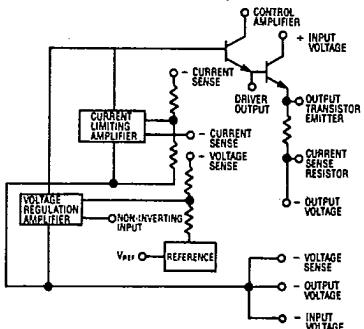

⁽¹⁾Output current vs. input-output voltage differential must be maintained per the Safe Operating Area curves.

⁽²⁾Case 1, heat-dissipating base.

⁽³⁾Darlington transistor, power section.

(1) Nominal output voltages and rated currents are specified under Device Selection Guide.

(2) The output voltage tolerance is adjustable; precise output voltage is set by external programming resistor.

(3) Measured with $R_{SENSE} = 2500\Omega$

(4) Power dissipation must be maintained per the Power Derating curve.

Output current vs. input-output voltage differential must be maintained per the Safe Operating Area curves.

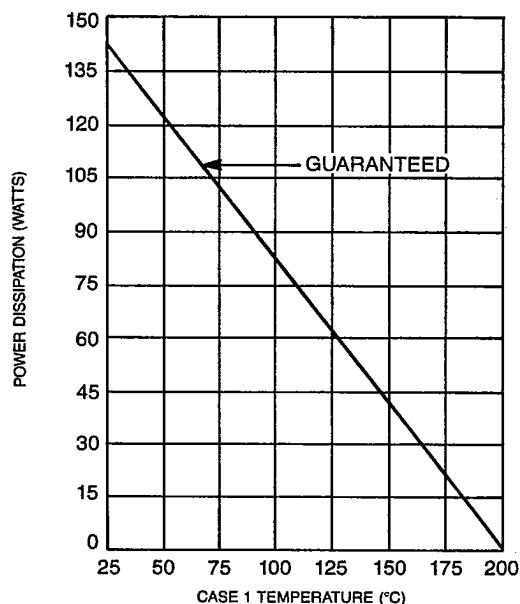

(5) Ripple attenuation is specified for a 1Vrms, 120Hz input ripple. Ripple attenuation is 54dB minimum for 24V and 28V models.
