

Series 804 ASAP Cordsets

PRODUCT FEATURES

- Rugged Polyurethane Cable Jackets
- ASAP QDC Cordsets Available with Plug and Receptacle Connectors
- Ideal for Hostile Environments
- Braided Tinned Copper Shields Band Terminated Directly to Connector Body

Glenair ASAP “Mighty Mouse” Cordsets Offer Watertight Sealing and Excellent Cold Temperature Flexibility

Rugged thermoplastic polyurethane cable jackets provide excellent toughness and good environmental weathering. Braided tinned copper shields are terminated directly to the connector body with a stainless steel *BAND-IT*® clamp. Ideal for hostile environments, these ASAP cordsets are suitable for tactical military gear, geophysical equipment and industrial applications. Contact Glenair for other cable options not covered in this catalog. Glenair offers a wide variety of cabling materials and constructions to meet any requirement.

Series 804 Cordset Specifications

Primaries (Conductors)	#24 AWG Teflon®-Insulated Tinned Copper, 19 Strand, Per MIL-W-22759/11-24
Wire Color Code	3 - 10 Pin Cables: Color-Coded in Accordance With MIL-STD-681 System 1, Wire Number 1 Black 19 - 85 Pin Cables: White
Cable Shield	Tinned Copper Braid, 90% Minimum Coverage
Jacket	Thermoplastic Polyurethane, Black, UL 94 V-0 Rated
Shield Termination	<i>BAND-IT</i> ® Termination System With Stainless Steel Band
Operating Temperature	-30° C. to +105° C.
Overmolding Compound	Polyamide
Solvent Resistance	Excellent Resistance to Most Solvents, Fuels and Oils; Poor Resistance to Strong Acid and Bipolar Solvents (Alcohol)
Resistance at 20° C.	(8 Milliohms Mated Contacts) + (15 Milliohms Per Foot Of Wire)
EMI Shielding Effectiveness	40 dB Attenuation, 100 MHz to 1000 MHz
Contact Current Rating	5 Amps Maximum
Dielectric Withstanding Voltage	500 VAC Sea Level
Insulation Resistance	200 Megohms Minimum
Immersion	1 Meter Immersion for 1 Hour per MIL-STD-810 Method 512
