#### **Description**

M/A-COM's MAPDCC0004 is an IC-based monolithic power divider in a low cost SOIC-8 plastic package. This 2-way power splitter is ideally suited for applications where small size, low profile and low cost, without sacrificing performance are required. Typical applications include base station, portables and PCMCIA cards for DCS-1800 European applications. Available in tape and reel.

The MAPDCC0004 is fabricated using a passiveintegrated circuit process. The process features fullchip passivation for increased performance and reliability.
