

Standard Designed Toroidal Isolation Transformers

FOR DOMESTIC AND INTERNATIONAL APPLICATIONS

COMMERCIAL, INDUSTRIAL AND MEDICAL MODELS

Tortran offers a new line of isolation transformers for commercial and industrial use certified to UL and Canadian safety standards. The transformers up to 1000VA are also certified to IEC742 standards and come with CE marking. The 1500VA and 2000VA transformers comply with IEC742. **Standard options include auto-resettable thermal protection, static shield or full compliance with medical safety standards (UL2601, IEC601.1).**

Below 600VA, we supply transformers with one steel washer and two rubber pads. Larger transformers come with epoxy potted center with a drilled hole and a flat bottom.

CUSTOM DESIGNS

We will be happy to supply you with isolation transformers designed to suit your exact needs. Depending on you specifications and annual usage, the unit price might be lower than that of our closest standard transformer. We also build isolation transformers to comply with **medical standards UL2601, CSA601.1 and IEC601.1.**
