DESCRIPTION: MEDICAL AC-DC POWER SUPPLY SERIES: ETMA 200W

FEATURES

- up to 200 W power
- universal input (90~264 Vac)
- single regulated output from 12~48 V
- over voltage, overload and short circuit protections
- full medical safety approvals
- active PFC
- level V efficiency
- custom designs available

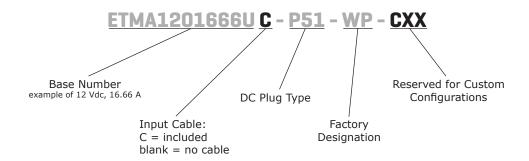

MODEL	output voltage	output current	output power	ripple ¹	efficiency level
	(Vdc)	max (A)	max (W)	max (mVp-p)	
ETMA1201666U	12	16.66	200	240	V
ETMA1601250U	16	12.5	200	300	V

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions:

- (1) This device may not cause harmful interference, and
- (2) this device must accept any interference received, including interference that may cause undesired operation.

CUI offers a two (2) year limited warranty. Complete warranty information is listed on our website.

CUI reserves the right to make changes to the product at any time without notice. Information provided by CUI is believed to be accurate and reliable. However, no responsibility is assumed by CUI for its use, nor for any infringements of patents or other rights of third parties which may result from its use.

CUI products are not authorized or warranted for use as critical components in equipment that requires an extremely high level of reliability. A critical component is any component of a life support device or system whose failure to perform can be reasonably expected to cause the failure of the life support device or system, or to affect its safety or effectiveness.
