Smart Mobile USB Storage

One-Touch USB Mobile Storage -- The LevelOne **MUS-2500** Smart Mobile USB Storage is an intelligent Plug-and-Play high speed USB 2.0 compatible external storage device. The palm size external drive has been designed to backup and protect important PC data and application in one single action.

Protecting Precious Data in One-Touch-- The **MUS-2500** offers powerful backup, restore and synchronize functions through a "One Button" backup procedure. Your data, e-mails, address book, IE favourites and applications are securely stored on a secure and private external hard drive that is password protected. The software is already installed on the Smart Drive and requires only a USB connection to your laptop or PC to securely backup, restore and synchronize the data between the devices.

Mobile Storage -- The mobility of the **MUS-2500** makes it the best solution to keep data between different computers up-to-date or to carry important information with you securely and conveniently. The Smart Mobile Storage device supports automatic backup and restoring of Outlook Express e-mails and address book, the Internet Explorer's favourites folder as well as the My Documents folder in Microsoft Windows. Further, the high speed compatible USB2.0 external drive can backup, restore and synchronize large data files in less than 5 minutes.

MUS-2500

Intelligent USB2.0 Hub -- The **MUS-2500** has an additional two USB 2.0 Hub ports to extend the use of USB devices like keyboards, computer mice and other external drives. An intelligent One-Button backup procedure makes child play of any backup process. The backup function can be defined and modified via the installed software on the Smart Mobile USB storage drive. Now, by pressing one button, data is backed up, restored or synchronized between PC, laptop and other external drives connected to the **MUS-2500**.

Easy to Install and Management -- The **MUS-2500** Smart Mobile USB Storage disk is an intelligent external drive. It has a virtual CD drive that automatically runs when the drive is connected to PC or laptop computer. This means that no additional software is required to install and use the device. The **MUS-2500** also supports an array of languages in a friendly graphic user interface.

Key Features
