

**SGM4812**

## **132mW Differential Input, Stereo Audio Power Amplifier**

### **GENERAL DESCRIPTION**

The SGM4812 is a stereo audio power amplifier with differential inputs. Operating on a single 5V power supply, it delivers 132mW of continuous RMS power per channel into a  $16\Omega$  loads with typically 0.1% THD+N. Amplifier gain is externally configured by means of two resistors per input channel and does not require external compensation.

The SGM4812 is designed to maximize audio performance in portable communication device applications such as mobile phone. The portable application requires audio power amplifier has minimum of external components and can operate from a single 2.7V to 5.5V power supply.

The SGM4812 features an externally controlled, active-high, micro-power consumption shutdown mode. Additionally, the SGM4812 features an internal thermal shutdown and short circuit protection mechanism.

The SGM4812 is available in Green MSOP-10 package. It operates over an ambient temperature range of -40°C to +85°C.

### **FEATURES**

- Dual Channel, Differential Inputs
- 132mW into  $16\Omega$  Load from 5V Power Supply at THD+N = 0.1% (Typical, per Channel)
- 82mW into  $32\Omega$  Load from 5V Power Supply at THD+N = 0.1% (Typical, per Channel)
- 2.7V to 5.5V Operation
- Thermal Shutdown and Short Circuit Protection
- Internal Pop Reduction Circuitry
- Internal Mid-Rail Generation
- Low Shutdown Current: 0.36 $\mu$ A (TYP) at 5V
- Shutdown Pin is Compatible with 1.8V Logic
- -40°C to +85°C Operating Temperature Range
- Available in Green MSOP-10 Package

### **APPLICATIONS**

Portable Electronic Systems  
Notebook Computers  
Mobile Phones  
PDAs  
GPS

## PACKAGE/ORDERING INFORMATION

MODEL	PACKAGE DESCRIPTION	SPECIFIED TEMPERATURE RANGE	ORDERING NUMBER	PACKAGE MARKING	PACKING OPTION
SGM4812	MSOP-10	-40°C to +85°C	SGM4812YMS10/TR	SGM4812 YMS10 XXXXX	Tape and Reel, 4000

NOTE: XXXXX = Date Code and Vendor Code.

Green (RoHS & HSF): SG Micro Corp defines "Green" to mean Pb-Free (RoHS compatible) and free of halogen substances. If you have additional comments or questions, please contact your SGMICRO representative directly.

## ABSOLUTE MAXIMUM RATINGS

Supply Voltage.....	6V
Input Voltage Range .....	-0.3V to (V <sub>+</sub> ) + 0.3V
Junction Temperature .....	+150°C
Storage Temperature Range.....	-65°C to +150°C
Lead Temperature (Soldering, 10s) .....	+260°C
ESD Susceptibility	
HBM.....	4000V
MM.....	400V

## RECOMMENDED OPERATING CONDITIONS

Supply Voltage Range .....	2.7V to 5.5V
Operating Temperature Range .....	-40°C to +85°C

## OVERSTRESS CAUTION

Stresses beyond those listed may cause permanent damage to the device. Functional operation of the device at these or any other conditions beyond those indicated in the operational section of the specification is not implied. Exposure to absolute maximum rating conditions for extended periods may affect reliability.

## ESD SENSITIVITY CAUTION

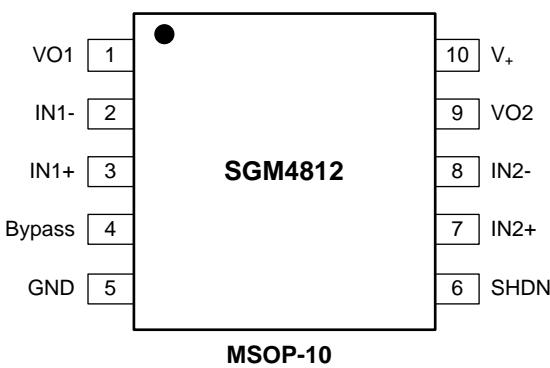

This integrated circuit can be damaged by ESD if you don't pay attention to ESD protection. SGMICRO recommends that all integrated circuits be handled with appropriate precautions. Failure to observe proper handling and installation procedures can cause damage. ESD damage can range from subtle performance degradation to complete device failure. Precision integrated circuits may be more susceptible to damage because very small parametric changes could cause the device not to meet its published specifications.

## DISCLAIMER

SG Micro Corp reserves the right to make any change in circuit design, specification or other related things if necessary without notice at any time.

## TYPICAL APPLICATION

## NOTE:

1. A 10kΩ resistor must be serially connected to SHDN pin.

## REVISION HISTORY

NOTE: Page numbers for previous revisions may differ from page numbers in the current version.

## MARCH 2017 – REV.A.3 to REV.A.4

Changed Packing Option.....	2
-----------------------------	---

## NOVEMBER 2012 – REV.A.2 to REV.A.3

Added note for Typical Application circuit .....	8
--	---

## MAY 2012 – REV.A.1 to REV.A.2

Added Tape and Reel Information .....	10-11
---------------------------------------	-------

## AUGUST 2010 – REV.A to REV.A.1

Updated Electrical Characteristics .....	3
--	---

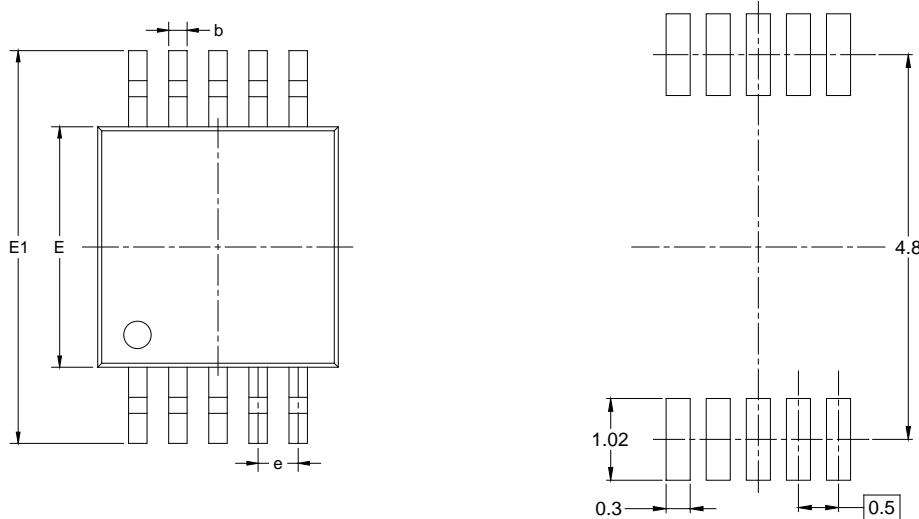

## Changes from Original (JUNE 2008) to REV.A

Changed from product preview to production data.....	All
